You can watch it on Instagram and Triller.Verzuz is giving an Easter Sunday treat as we watch Verzuz: The Isley Brothers vs Earth, Wind & Fire — and it's going on be on both Instagram Live and ... Triller? Yes, goodbye Apple Music. Verzuz found a new partner for its live streams. And this matchup will be legendary, and unlike most Verzuz, it will even have a special host.If Cincy and Chicago's finest weren't enough, Verzuz has hired Steve Harvey to MC the event. Both bands have more than enough hits, though, as Earth, Wind & Fire can draw on "September," "Shining Star," among others, while The Isley Brothers' catalogue packs classics including "Twist & Shout," and "It's Your Thing."For those unfamiliar with Verzuz, these shows are informal competitions between artists. Each superstar plays one of their hits, followed by the other, volleying back and forth like a tennis match. Then it's up to the public to decide (voicing their opinions in the comments and on social media) who won. Verzuz has been massively popular, and Swizz Beats (the event's co-creator) announced that the previous battle (Gucci Mane vs Jeezy) broke an "all-time livestream viewership record," with 9.1 million streamers watching along. That's a massive multiple of the prior most popular Verzuz, when Brandy vs Monica had an estimated apex of 1.2 million viewers.How to watch Verzuz: The Isley Brothers vs Earth, Wind & Fire on InstagramIf you're OK watching on a phone or laptop, go ahead and open the Verzuz IG account (opens in new tab) and click on the LIVE button. They may direct you to the individual artists' accounts, we'll see then.There's typically a short wait from the 8 p.m. ET start time before the actual festivities begin, so you have time to pour a nice beverage if you haven't already.Want to watch on a bigger screen? Open that page in your web browser and not your phone, and follow the same instructions. How to watch Verzuz: The Isley Brothers vs Earth, Wind & Fire on TrillerTriller will stream Verzuz: The Isley Brothers vs Earth, Wind & Fire in HD, on both iOS (opens in new tab) and Android (opens in new tab).Up next: What we know about Stranger Things season 4 Update, January 5, 2021 (03:34 PM ET): Today, the Minecraft Earth staff announced that, starting in June 2021, the game will no longer see support. Open Our Eyes had been a major hit and sold over half-a-million units, but it was World that established EWF as major-league, multi-platinum superstars. Fueled by gems ranging from the sweaty funk of "Shining Star" and "Yearnin' Learnin'" to the gorgeous ballad "Reasons" and the unforgettable title song, EWF's sixth album sold at least five-million units. And some of the tracks that weren't major hits, such as the exuberant "Happy Feelin'" and the gospel-influenced "See the Light," are equally powerful. There are no dull moments on World, one of the strongest albums of the '70s and EWF's crowning achievement.
